users of assistive technology, like a screen reader.

CONTRAST

- ⚠ Background and foreground colors do not have a sufficient contrast ratio.

These are opportunities to improve the legibility of your content.

BEST PRACTICES

- ⚠ Touch targets do not have sufficient size or spacing.

These items highlight common accessibility best practices.

NAVIGATION

- ⚠ Heading elements are not in a sequentially-descending order

These are opportunities to improve keyboard navigation in your application.

ADDITIONAL ITEMS TO MANUALLY CHECK (10)

[Show](#)

These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](#).
